Rate Schedule T-4
FIRM DISTRIBUTION ONLY TRANSPORTATION SERVICE
(Continued)

In the event that total deliveries to any T-4 customer did not meet the 200,000 therm threshold during the current contract period, an additional amount shall be billed. The additional amount shall be calculated by billing the customer's total usage during that contract period at the Rate Schedule GS-1 Block 3 rate, adjusted for the cost of gas, and then subtracting the amounts previously billed during the annual contract period. The customer's future eligibility for the T-4 Rate Schedule will be renegotiated with the Company.

2. **Usage above 750,000 therms in any given month which is in excess of the customer's historical maximum above 750,000 therms for that same month, such historic usage measured by the 3 years ended September 30, 1995, will be billed at the currently effective T-4 Block 2 price.**

3. **Any T-4 customer who has exited the LV-1 service will pay to Intermountain Gas Company, upon entrance to the T-4 service, all pipeline reservation costs incurred to serve the customer during the LV-1 contract period not borne by the customer during said contract period. Any T-4 customer who has exited the LV-1 service will have refunded to them, upon exiting the LV-1 service, any excess pipeline reservation cost payments made by the customer during said contract period.**

EXIT FEE PROVISIONS:

1. **Any LV-1 customer, upon execution of a T-4 contract, will pay to Intermountain each month for a period of two (2) years, an Interstate Pipeline fixed cost collection rate of $.015 per therm times the customer's T-4 Block 1 and Block 2 usage. Any Block 1 or Block 2 usage during the month that exceeds the customer's historic high usage for that same month, such usage as measured by the three (3) years, will not be subject to this Interstate pipeline fixed cost collection rate.**

2. **In lieu of paying the Exit Fee Provision, as stated in the above paragraph #1, the exiting LV-1 customer will provide to Intermountain a one year or more advanced written notice of the customer's intent to contract for T-4 service. The written notice will include the amount of daily firm interstate capacity the customer wishes to relinquish from their LV-1 contract when switching to service under the T-4 tariff. Intermountain will select, through the Exit Fee Waiver Customer Selection Process, the applicants eligible for the Exit Fee Waiver up to a maximum of 200,000 therms per day of relinquished firm interstate capacity. T-4 service for the selected customers will begin no earlier than October 1, 1999.**
