SMART THERMOSTAT

Forget the hassle of adjusting your thermostat and let a wi-fi smart thermostat do it for you, maximizing your energy savings. Apply for a rebate when you buy an ENERGY STAR Certified smart thermostat.

AIR SEALING

Air leaks waste your energy dollars! Find Energy.gov's step-by-step guide to sealing air leaks linked on our webpage: www.intgas.com/energy-saving-tips.

S.A.V.E.

VENTILATION

Fresh filters trap dust from entering your heating system and your home. Change furnace filters once a season for better indoor air quality. Bonus: fresh air filters help your heating system run more efficiently.

ENERGY EFFICIENT

Water heating makes up 14-18% of your energy bill. Check out our rebates when you upgrade to a high-efficiency storage water heater or tankless water heater.

ONE SCORE TELLS YOU MORE!

The HERS Index Score is a way to compare homes based on energy performance. A certified Home Energy Rater will evaluate a home and assign a performance score, the HERS Index Score. The lower the score, the more energy efficient the home, which means more comfort and lower home energy costs. Ask for the one score that tells you more, the HERS Index Score.
