## Level Pay Plan

### *Levelize payments*

Level Pay takes the guesswork out of budgeting and levels out monthly energy expenses so you don't have to be concerned about extremes in the weather impacting your bill. Pay a balanced monthly amount through the year, as opposed to paying larger bills in the winter when more natural gas is used.

- ▶ Available to all residential and small commercial customers who meet the program criteria. Join anytime during the year.
- ▶ To calculate a level payment amount, we total your previous 12 months of energy use and average that amount into even payments.
- ▶ Level Pay amounts are reviewed and adjusted periodically. It may be adjusted due to weather, price fluctuations or consumption changes.
- ▶ If at the end of the program year you have a debit balance that is equal to or less than two level payments, it will be rolled into the new Level Pay amount. A debit balance greater than two or more level payments should be paid before the new Level Pay year begins.
- ▶ Level Pay payments must be made each month. Missing payments may result in removal from Level Pay, at which time the full balance will become due.
