Building Information

Is an electric heat pump installed in the home? Yes No
Homes heated by both natural gas and electric power are not eligible for Intermountain Gas heating equipment rebates.
If an electric heat pump is installed in the home, is it wired to the "Cool Only" setting? Yes No
Type of Home: Single Family Duplex Manufactured/Mobile Other _____
Year Home Was Built _____ Square Footage of Home _____

Space Heating Incentives (If Applicable)

Furnace – 95% AFUE – \$275
Boiler – 95% AFUE – \$800
Combination Boiler for Space and Water Heating – 95% AFUE – \$800

Installation Date _____ Permit Number _____
(Provide the permit number associated with the installation of the rebate eligible equipment)

Brand _____ Model _____ Serial Number _____

Furnace Sizing:

Heat Loss Calculated for the home (BTU) _____ Furnace Size Installed (BTU) _____

If this application is for an Equipment Replacement, the following are required:

Was the existing equipment operational at the time of the replacement? Yes No

Existing Equipment Input (BTU) _____ Existing Equipment Efficiency: _____

Existing Equipment Age _____

Attach a copy of your final invoice (*invoice must include installation date, cost, brand, model number and serial number*)

See Other Side

Water Heater Incentives (If Applicable)

Tankless Water Heater Tier I – .91 UEF Or Greater Efficiency – \$325

Installation Date _____ Permit Number _____

(Provide the permit number associated with the installation of the rebate eligible equipment)

Brand _____ Model _____ Serial Number _____

If this application is for an Equipment Replacement, the following are required:

Was the existing equipment operational at the time of the replacement? Yes No

Existing Equipment Efficiency (UEF) _____ Existing Equipment Age _____

Attach a copy of your final invoice *(invoice must include installation date, cost, brand, model number and serial number)*

Participation Agreement

By signing below, Participant certifies that the information provided on this rebate application is true and correct. Participant agrees to the terms, conditions, and obligations set forth herein and those found in the Residential Energy Efficiency Rebate Program Terms and Conditions. Participant represents to Intermountain Gas that all energy saving measures have been completed satisfactorily and Participant meets the eligibility requirements shown under the "Eligibility" section found in the Residential Energy Efficiency Rebate Program Terms and Conditions. Intermountain Gas and/or its representatives may request access to the property on which rebate-qualified work has been completed and/or installed in order to confirm rebate eligibility. Customer understands that Intermountain Gas and/or its representatives may review and evaluate the project during and after completion. Participants agree to provide access to the property for the purpose described above.

Consent to Release of Customer Information: Participants consent to the release of their customer information (including name, service and mailing address, phone number and account number) by Intermountain Gas for purposes of regulatory reporting and to its designated internal or third-party representatives for the purpose of (1) issuing applicable energy efficiency rebates; and (2) verifying completion and/or installation of rebate-qualified energy efficiency upgrades.

Participant Signature _____ Date _____

Application Submission

All applications and required forms must be submitted within 90 days of equipment installation date.

If you have questions whether specific equipment would qualify, please contact IGC in advance of purchasing the equipment.

Internal Use Only

Postmark Date _____ IGC Premise Number _____ Rebate Number _____

Deadline Dates: Rebates for qualifying natural gas equipment must be submitted within ninety (90) days of installation.

Eligibility: Energy-efficiency rebates are available to residential customers and residential new construction builders served on Intermountain Gas Company's (IGC) residential rate schedule in the state of Idaho. Customers must meet all eligibility requirements listed in IGC's Residential Energy Efficiency Rebate Program (Rate Schedule EE-RS). Only one rebate per equipment type will be issued per home; if multiple units of the same equipment (e.g., more than one whole home, or tankless water heater) are installed in a single home, only the first unit of each equipment type will be eligible for a rebate.

Customer must heat home exclusively with natural gas provided by IGC to qualify for all space heating rebates and use natural gas exclusively as the water heat fuel to qualify for water heating rebates. Customer must not use an electric heat pump for space heating, even if a natural gas furnace is utilized as backup. If an electric heat pump is installed in the home, it must be wired to the "Cool Only" setting.

All equipment must be new. All equipment must be installed according to current code and approved by local or state inspection with the signed, approved permit attached to the newly installed equipment. All equipment must be installed, and work completed by a licensed and bonded contractor, unless self-installed. At its sole discretion, IGC may make eligible the work of other qualified contractors on a case-by-case basis.

Rebate will be paid after completion and verification of the energy savings measure(s) and submission of all required documentation. Only the original purchaser of the qualifying equipment or the purchaser's designated appointee shall qualify for rebate. Customers are advised to retain a copy of this rebate application and any other documentation submitted to IGC under this program.

Support Documentation: Support documentation is required for all rebate-eligible, energy efficiency equipment, including: final invoices that list installation date, cost, brand, model number and serial number.

Support documentation for self-installation is required for all rebate-eligible, energy efficiency equipment, including: copies of purchase receipts and photos of equipment sticker displaying brand, model number, and serial number.

IGC reserves the right to verify that work was completed, and meets program standards, through an in-home site inspection. Customer consents to such inspection through participation in this program.

Payment: Rebates shall be paid directly to the qualifying participant in the amount authorized at the date the qualifying energy efficiency upgrade was installed. Please allow six to eight weeks for rebate processing.

Rebates: Rebates for authorized energy savings measures are limited to the amounts provided on IGC's Residential Energy Efficiency Rebate Program tariff. All rebate measures must meet IGC's required energy specifications. Current rebates, specifications, and rebate amounts can be found on IGC website at www.intgas.com/saveenergy and are subject to change. Eligible equipment must be installed in the state of Idaho during the effective dates of the current rebate program tariff to qualify for a rebate. It is the responsibility of the customer to ensure that the installed equipment qualifies for the rebate. If the equipment does not qualify, no rebate will be paid. If you have questions on whether specific equipment would qualify, or have any questions regarding this IGC's energy efficiency programs, please contact IGC at **1-800-548-3679 prior to installation**.

Disclaimer/No Liability: Customer understands that, while IGC may have provided rebates for approved conservation measures and equipment, IGC is not selecting any particular equipment for installation or supervising work performed for Customer, nor is IGC responsible in any way for proper completion of that work or proper performance of any equipment purchased. Customer voluntarily enters this agreement and assumes the risk of any loss or damages that Customer may suffer in connection with the installation of rebate-eligible, energy efficiency upgrades. IGC does not guarantee any particular energy savings results by its approval of this application, or by any of its actions.

Release: By participation in this program, Customer, for itself and its successors and assigns, hereby releases IGC, its affiliates, and its and its affiliates' officers, employees, agents, and contractors, from any and all claims, liabilities, losses, damages, or expenses, including but not limited to property damage, personal injury, or economic loss, arising from or in connection with the selection purchase, installation, operation, or maintenance of rebate-eligible equipment.
